Machilipatnam,Krishna District, Andhra Pradesh

SUMMARY

AI & Machine Learning graduate with hands-on experience in building RAG-based chatbots, FastAPI applications, and cloud-hosted AI solutions. Completed internships on IBM Cloud and Microsoft Azure, developing conversational AI systems and citizen-service platforms. Skilled in Python, SQL, REST APIs, NLP, and Generative AI applications.

EDUCATION

B.Tech – CSE (AI & ML)
Gudlavalleru Engineering College (2022–2026)
CGPA: 7.8

Intermediate (MPC)
Pavithra Junior College (2020–2022)
Percentage: 93.2

WORK EXPERIENCE

Generative AI With IBM Cloud– SmartInternz (IBM Cloud) (May 2025 – Jun 2025) Link

- Built Citizen AI, a platform integrating chatbot, complaint management, and analytics dashboard for citizen services.
- Enabled AI-driven interaction between citizens and government services

AI Intern – Microsoft (Azure) (May 2025 – Jun 2025) Link

- Developed NLP chatbot using Python & Streamlit to improve user interaction
- Built AI-driven solutions using APIs and cloud-based tools

PROJECTS

Scheme Assist – AI-Powered Government Scheme Chatbot Link

- Developed an Agentic AI chatbot using RAG and LLMs for government scheme recommendations.
- Used RAG + LLM (Gemini) for real-time, accurate responses
- Implemented multilingual + voice interaction for accessibility
- Improved user experience by delivering structured, eligibility-based results

HydroHub – Water Management Platform Link

- AI chatbot for water-related queries
- Secure authentication system
- Developed backend APIs and database integration using Python and SQL.

CERTIFICATIONS

- Python – Cisco Link
- Machine Learning – IBM Link
- Generative AI – BIST Technologies Link
- C Programming – JNNYC Link

SKILLS

Languages: Python,SQL,JavaScript
Framework: FastAPI, Flask, Streamlit
Web Technologies: HTML,CSS

- **AI/ML**: Machine Learning, NLP, LLMs, (RAG+Chatbots)
- **Tools**: Git,Github,Hugging Face, Postman

ACHIEVEMENTS

- Participated in Smart India Hackathon & HACK$DAY
